

## Prospect Reservoir - 15 April

This was an outing full of positives for our club. A wonderful roll-up of all types of Minors was the main point, with excellent camaraderie among the group members and their families. Strangely, it was the first time to Prospect Reservoir for quite a few of us, even though it is located in the very centre of the Sydney region.

A couple of highlights spring to mind. First was the inaugural club outing of John Bowmer's MM restoration project; it certainly attracted a lot of interest – and justifiably so (his story is elsewhere in the magazine; it's a great read). Congratulations on a terrific resto, John!

Have you seen three immaculate woodies together? We had them at Prospect. They even formed their own 'group' for a photo shoot, away from all those annoying sedans/saloons. Cute.

For the culinary-inclined members, lunch was superbly cooked and presented by Martin Chapman and his lovely sister, Marion. I am a bit of a slow learner and have only been in the club for a few years but even I can appreciate the amount of work that goes on behind the scenes food-wise with Martin and Marion; they present the most magnificent spread - and they cook as well. Thank you Martin and Marion from the bottom of our hearts (and stomachs!).

Our group was buzzed all afternoon by touch-and-go practice landings on the lake by at least two aircraft, but that and the wind (!) couldn't dampen our enthusiasm for a most memorable day.

Cheers,  
Ed

Three sparkling Woodies!

Morris Minor line-up at Prospect

Happy customers :)

**Prospect**

**Scott Barraclough's historic MM, one of the 15 Minors at Prospect**

**The three Woodies**

**Craig Vallance's cream 1000 with Rex and Mary Peters' colourful Series**

**Careful handling of the food trailer!**
