

## Machines and Macchiatos November 24

I arrived at St Ives Showground on a fine Sunday morning to find easy parking and no queue to get in the gate. The display area was in the internal oval of the showground.

On display were a large number of 1960's and onwards cars and motorbikes, both original and restored. There was a large display from 'Muscle Car Warehouse' which had many GT Falcons - and their guests for the show were Allan Moffat and Fred Gibson!

As well as the motor displays there were coffee and food vendors, trade displays and a children's play area. Batman and his car kept the children entertained with a lot of selfie taking.

This was a most enjoyable day, looking at vehicles from 'my' era, when I first started getting interested in cars and motorbikes. I will make sure I attend again in 2020.

Cheers,  
Craig Vallance

The great man himself: Allan Moffat - four victories in the Bathurst 500/1000 and six wins in The Sandown 500. Only Moffat and Brock won both 500mile and 1000km races at Bathurst.
