

Mid North Coast

Christmas time has been and gone, very little activity on the Morris Minor in and around my area. In my shed I currently have a modified 49 tourer, which is slowly being brought back to life and Bob Gilliland has donated a lot of time and effort making a harness for the car.

I have replaced the 4 headlight front effect by removing the highlight guards, reverting back to the low light look, which appeals to me more. Marina brakes have been overhauled and lots of other boring stuff done.

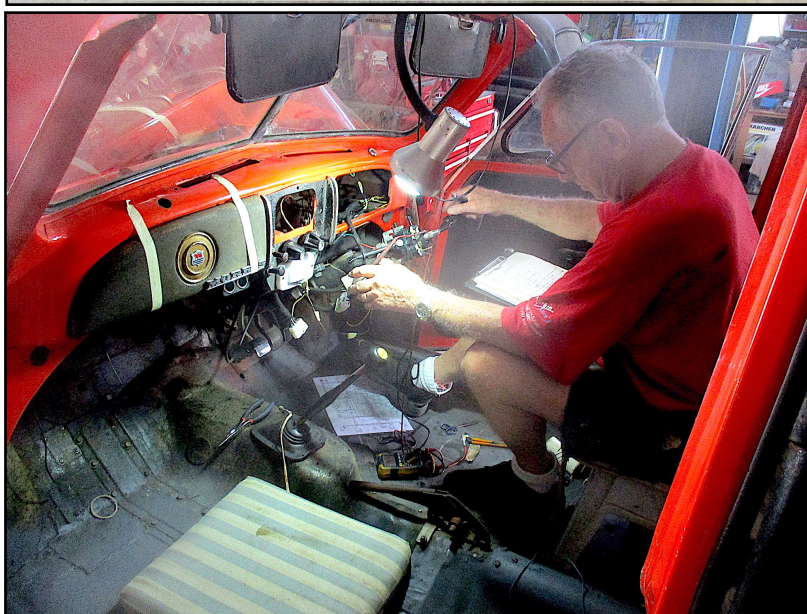

Rhonda & I will be attending Gnoo Blas then Wellington again this year, taking the camper with us and seeing some of sights in the central west between the two car shows.

Hat Head rally is on again this year, the first weekend in May, so any who wish to spend some time in the Macleay Valley, you are more than welcome, I will have entry forms in February for this event.
