

## Sydney

Well, who knows what is happening any more, with restrictions being refined, re-adjusted, reinvented, regurgitated, and then refined again! I don't know whether to plan anything or to not plan anything.

All I can say is that the 'planned' outings to the Bus Museum and the Armory will have to be put off until we are freer from the corona. It seems that both are shut for the duration.

Instead, let's try again for Cataract Dam on Sunday 1 November? The last visit was very pleasant and late spring in early November shouldn't be too hot.

How about an early morning cars-and-coffee from 8am at the Armory Wharf Café on Sunday 22<sup>nd</sup> November (Blaxland Riverside Park, Jamieson Street off Holker Street, Newington). This is a very picturesque location on Parramatta River and breakfast is served all day if you want. The early start will get you back home before the heat hits (from the sun, not from your other half). Come on, you Sydney-siders, let's get out.

Due to the ongoing restrictions on outdoor gatherings we are limited to only 20 people. Due to these restrictions, the following will apply:

You MUST RSVP to me via phone or text (0412 253 344) to reserve your spot; once confirmed, you're in. As attendance is limited to 20 people, get in early to secure your place. I will keep a list which will then be checked off at the venue on the day, and will also double as the official record of attendance. Any members who come along on the 'off chance' will only be accepted if there is sufficient places available, so be sure to book early.

If we have an overwhelming response, we will look at the option of arranging an additional day for these events.

We will have to run any events like this for the foreseeable future, until outdoor number restrictions are eased.

## Outings

Cataract Dam (Mk II) - Sun 1 Nov. This is a beautiful spot, perfect for a late spring picnic. Convoy from Caltex Roadhouse Crossroads at 9.30. BYO everything!

'Breakfast With The Cars' - Sun 22 Nov at the Armory Wharf Cafe. Try to get there as soon as possible after 8.00am so we can park together, as this place gets popular from 9.00am onwards.

Remember, bookings with me for both events are essential.

## A quick update on my car...

I had another visit from my friendly helper recently and together we changed the bushes in the rear suspension, successfully!

This was particularly challenging for me as this is the most the car has been taken apart, but thanks to the expert help I have been getting, I was relieved when everything went back together as it should.

I'm looking forward to the next instalment, where we intend to tackle the front suspension...

After that, brakes will be the next thing to look at, where I intend to replace the old booster I had installed with a newer one.

Regards,  
David
