

Sydney Report

Hello fellow Morris Minorists. Well here we are in 2021, no doubt you've heard many people say how much we 'hope it's better than 2020', so there's probably no need for me to say it as well. We had a pretty quiet year last year re outings but with restrictions gradually being eased it looks like we might be able to have a few more this year (check out the 'Events' page and the list here for what looks like a 'dam' good year).

Once again, until things are eased off completely, we will have to observe the restrictions on outdoor gatherings (whatever they are at the time of the outing), and the following will still apply:

You **must** RSVP to me for any outings that I have organised, by either email, phone call, or text (0412 253 344) to reserve your spot. Any members who come along on the 'off chance' will only be accepted if there are sufficient places available, so be sure to book in early please.

Now by the time you read this I will have got stuck into the front suspension on my car (and hopefully it's not in too many pieces), I'm looking forward to ticking a few more boxes off on the road to getting... back on the road.

On another note, out west in regional NSW my parents have 25 acres of land which we go to a few times a year to 'get away from it all'. On the property (up a fairly steep and rugged hill) are 2 burnt out Morris Minors; I have included a pic or 2 in this magazine. To get where they have

ended up really proves that they're a go anywhere kinda car!

Outings
