

## Sydney Report

Hello fellow Morris Minorists...

I don't want to jinx it but, it seems, we're free (but don't say it too loud, just in case...)

**Outings:** FINALLY, after exactly 5 months and one day since the last outing... On Sunday 7 November we went somewhere as a club - and what a day it was. There were worries about whether it was on or off due to the predicted bad weather, but a solid number braved it and we met up at the very scenic Burragorang Lookout.

The bad stuff: it drizzled, the BBQ's didn't work, it rained, it was very foggy, it poured.

The good stuff: there was a shelter, our club BBQ was there, there were some tables and chairs under the shelter, and we GOT TOGETHER AGAIN AT LAST. A great day was had by all, with some spectacular (and ever changing) views taken in as well as some good food and conversation.

And just because we could, we backed it up again the following weekend for our Annual Show 'n' Shine, held at Cataract Dam this year. A great turnout, there were 16 cars and at least twice that in number of people, but this time... the weather was perfect, the BBQ's worked, there were Show 'n' Shine prizes, there were cakes, and once again, great company (which seems to be a constant at any of our get-togethers).

**Upcoming outings/events** to keep in mind and plan for...

**December 12** - Christmas Lunch at Club Mt Lewis

**January 26** - Australia Day in Berrima

**February 12-13** - Gnoo Blas in Orange

**March 5<sup>th</sup>-6<sup>th</sup>** - Wellington Vintage Fair

**Regalia:** With outings and Events back in play again now, don't forget the NEW Windscreen Banners IN STOCK NOW! Also, I still have some excess items on hand

that are being cleared out at reduced prices (limited sizes and styles available so please contact me if you're interested and I'll let you know what I've got left). Lastly, keep in mind the 'limited edition' items, when they run out, they won't be re-ordered (golf umbrellas and car grille badges) so get in and order one while stocks last. With this summer shaping up to be a wet one you might need to be asking yourself if you really can ever have too many MMCC golf umbrellas?

Cheers,  
David
