

## GWR Morrie – But NOT the Great Western Railway!

There are Morries everywhere, in the oddest of places!

Have you heard the story about the Morrie that drives up to the bar? Well, Stateside on my last trip, I met up with Ollie, the owner of Great Wagon Road Distilling Company in Charlotte, North Carolina, USA. He is the proud owner of a mid-60's Morris Minor Traveller.

The car is left hand drive, was owned by the UK Embassy in Paris, France, then found its way to the States through Florida and thence to North Carolina. Ollie, a proud Irishman, once had a Traveller back in Ireland, and nostalgia for those old days led him to purchase the Traveller. The car is totally original, with original colours under the removable advertising wrap. He gave me a drive and I had that "old Morrie feeling".
