

## David Bursill's Update

Hello fellow Morris Minorists...

Since changing roles from the Sydney co-ordinator to the club Secretary I have been missing putting together my submissions for your enjoyment (or not), so I thought I would get something together for this one.

**Regalia:** Not a lot to report on here though, a couple of orders have gone through without a hitch but the latest order brings some delays with polo shirts. Fingers crossed that those who have ordered them will get them in time for the National Rally.

I still have the box of old stock available, there's Ladies ¾ sleeve shirts in sizes 10-24, Mens long sleeve shirts in sizes S, M, L, 2XL, Vests in sizes S & L, Mens polo shirts (old designs) in sizes S, M, L, Caps, Hats, Beanies, Umbrellas, Windscreen Banners, Car Grille Badges, and club stickers. Please let me know if there's anything you would like.

**My car:** Well, a bit has happened here, my engine, gearbox, diff, suspension, steering rack are all revitalised and back in my garage ready for action.

The underside of the car is all painted and now a nice clean black, and most of the car is rust free and prepared for assembly. No matter how much I thought I was ready for this part, apparently not, it seems that somehow I have misplaced some suspension bushes and a shackle pin (I swear I kept them all together)...

Anyway, I have definitely rounded the corner to assembly-town now and look forward to the fun part of putting it back together and getting (and keeping) another one of these great little cars on the road again.

Any colour so long as it's...

Interior of David's Morrie...  
looking good :)

Engine ready to go in

**My models:** We've decided to clean out our roof cavity at home and add some floor boards in up there to be able to store yet even more of our garbage good stuff. In doing so I found my boxes of model cars, so I got them all out and admired and photographed them before putting them all back into safe storage once again. I took loads of photos of my 117 Morris Minor models and have included some of them here.

Stay tuned for more news in future issues...

Cheers,  
David Bursill

We probably can't beat David's MM collection, but send a photo in of your Morrie models and it'll go into the magazine.  
Ed
