

Sir Rom Mailliw

This is what irony means. You buy an electric car to save the planet and a tree kills it!

Driving in rain with no lights on?  
This is what you look like in the mirror of a truck...

If only there had been something to prevent this

What might have broken?

Person: So which house do you live at?  
Sir Rom: You will know...

"How long till I need new brakes?"

What does it mean when this light comes on?

When you measure the gap... in inches!!!
