

## Byron Goes It Alone - Sept 17

It seems that you can't keep a good club member down. And never let it be said that you'd too old to go it alone. Byron-from-Lancashire has been chasing car shows to attend - and has found himself on the winner's end of the peoples' choice trophy!

"I went to a show starting at Camden airport, it was in aid of children with cancer, 'Camp Quality' so it was a good cause. It was a run across country via Picton then on to Oran Park. My, what a surprise for me to win an award."

Byron added, with respect to a certain other MMCCNSW member who was spending time in England with his old Lancashire mates: "Well, I feel safer with one engine in a car rather than one in a plane."

Regards,  
Byron
